

International Temprana course NEXT TIME IN POLAND 2011

Teacher Lone Sorensen
Language; Polish and English
Organized by Lone Sorensen & Robert Przybyś

This course is especially tailored for therapists; its goal is to give a better understanding of the therapeutic/functional action that is achieved through the stimulation of the Nervous system and the brain.

Any therapist, who treats a patient with some kind of brain and Nervous system dysfunction, be it motor, psychological or of any other ethnology must understand the function, its anatomy as well as its physiology.

The course main purpose is to teach the therapist how to treat a person with a brain dysfunction and to build a specific treatment plan for parents or family members. The main objective is to treat a child/adult intensively at home, as rehabilitation method using Neuro Face, foot and hand reflexology as tools.

Do you wish to work with handicapped children or/and adults?

Then this education is the right choice for you. We can offer a course concerning this exciting education in 5 modules of 5 days.

The subjects taught during this course are:

The functions and the anatomy of the human brain
The physical, motor and psychological consequences of brain damage
Parkinson's, dementia
Children born with brain damage
Acquired brain damage.
Epilepsy

The education is taught in English by Lone Sorensen, International Institute of Facial Reflexology and Temprana Therapy.

Learning Temprana reflex Therapy:

The course is structured into five parts after which you take an examination and will be awarded a Diploma in Temprana reflex Therapy, Sorensensistem TM.

NB; Students how are not Facial Reflexologists has to realize a 3 days Pre-course!

1. Oct 13st - 17th, 2011.

The functions and the anatomy of the human brain

The physical, motor and psychological consequences of brain damage

Children born with brain damage

Acquired brain damage

Epilepsy

Post traumatic brain damage

2. Jan 11st -15th, 2012

Syndromes

Neurological syndromes

3. April 11th - 15th, 2012

Mental illnesses

Autism

ADD

ADHD

Dysfunctions of sensibility

4. July. 17th - 23th, 2012

Learning and behavior problems

Dyslexia

Hyperactivity

Speech

Hearing

Concentration

5. Oct. 3th - 7th, 2012

Teaching and treatment model for parents/ family member

Conclusion

Thesis

Registration:

Registration deadline and payment latest 1st of July 2011

Course FEE: 3900 Euro each

Additional payment for Pre-course 470 Euro, totally 4370 Euro

About Lone Sorensen and the International Foot and Facial Reflexology Institute

The International Institute of Facial Reflexology and Temprana reflex Therapy is a 30 years old institution, teaching reflexology therapies, laser-therapy and anatomy.

Lone Sorensen established the first three Foot and Face Reflexology schools in Argentina and a school in Copenhagen, Denmark

Lone Sorensen is a therapist educated in reflexology, acupuncture, kinesiology and neurology working in Denmark since 1978, then in France, Chile, Germany, Argentina and Cuba. She lived 10 years of experience in Denmark, 13 years in Argentina and 8 years in Spain.

Over the course of 31 years in reflex therapies, Lone Sorensen has developed Facial Reflexology, a methodology combining therapies, with oriental medicine, acupuncture, the primitive techniques of aborigines, zone therapy and neuro-anatomy.

This same therapeutic method and the coordination of foot - face and hand reflex therapy is the basis of the concept of Temprana Stimulation, which is in a rehabilitation therapy for children and adult with brain damage, syndromes, mental and learning problems.

Her methods and concepts were approved in the center "Kurhuset" for patients with brain damage in year 2000 in Denmark.

She received three Nobilitary titles from the O.M.H.S. (Humanitarian World Organization Pro-Health in Argentina) in March 2001 for her works with reflex therapy for children in Argentina.

At the present time, Lone Sorensen teach her techniques in Spain, Denmark, Sweden, Finland, Italy, Poland, England, Holland, Argentina, Australia, Mexico, Abu Dhabi, USA, Canada, Japan, Chech Rep and Greece.
