TEMPRANA REFLEX THERAPY

IRFI of Lone Sorensen provides health care to children of Guatemala

In March of 2010 5 Guatemalan families attended a private course of Temprana Reflex Therapy donated by IRFI of Lone Sorensen.

“EL BUEN SAMARITANO“

In a small town on the outskirts of the peculiar Antigua you will find a nice day care center for children from marginalized families. The center conducted several activities to integrate these children into society and meet their basic needs. During March IRFI of Lone Sorensen donated school supplies and Temprana Reflex Therapy courses for families affiliated with this center.

¿Why Temprana Reflex Therapy?

In Guatemala, as in other countries, more disabled children are born each day growing up in families who find it hard to bear the costs of a sick person. So IRFI's of Lone Sorensen donation has been a great relief to these families who can barely afford the medication or special care their children need.

and treat their kids in a natural way with Temprana Reflex Therapy. This therapy is ideal for these kind of families as they do not need more than volition and a pair of hands

Families with children suffering from epilepsy, ADHD or hyperactivity, among other dysfunctions, were taught to deal with problems such as food,

HAND REFLEXOLOGY. It's a good start for the child become familiar with the therapy and it is very effective with hyperactive children for its calming effect.

MAKE A CHILDREN SMILE IS AN EASSY TASK. Teaching them to be healthy is also meeting their basic needs.

WITH FERFLEXOLOGY the child attains a state of balance and tranquility, improves the learning process and increases confidence in himself.
